## VILLAGE AGENTS

Village Agents link people in rural areas to advice and support services for independent living

## What is a Village Agent?

Village Agents can help you access information and advice so you can make informed decisions about your present and future life. Because Village Agents are independent they can offer the most appropriate advice for your personal circumstance.

## Why Village Agents?

Research shows that many people over the age of 50 would prefer to receive information about services face-to-face from a local, trusted contact, rather than attempting to find this information via the internet or making multiple phone calls.

Village Agents are recruited from the areas they work in to provide a connection between local people and the many existing voluntary and statutory organisations offering services and support.

Village Agents understand that the needs and wishes of people living in rural areas may be different to those in urban communities. We will listen and work with you to help achieve those wishes, enabling you to continue with your unique way of rural life.
